

Who we are

Office of Career Services (OCS) was created as a critical unit in the University that helps graduates to transit smoothly from learning to the world of work. It ensures that the manpower produced is relevant to the job market and industry needs as well as drives innovation, entrepreneurial growth, critical thinking, problem solving and effective communication for sustainable development.

“ Graduates with market orientation ”

What we do

The mandate of the Office of Career Services is two- fold; linking graduates to the job market and enhancing the value of graduates through skills and competency development. This is achieved through continuous career guidance and counselling, academic mentorship, provision of career information resources, industry exposures through attachments, internships, apprenticeship that increases the employability of our graduates and providing them with competitive edge in the job market and equip them with relevant skills and competencies.
